

1. Introduction

This users handbook is to help provide an understanding of correct and safe use of the Stannah Passenger Lift.

Your Passenger Lift has been manufactured and installed in accordance with European Standard EN81-2 – Safety rules for the construction and installation of hydraulic lifts.

Failure to ensure servicing is carried out could lead to unreliable or unsafe operation.

Your local Stannah Service Office is available to carry out the required examinations, to assist with the completion of the statutory reports and to provide any training required.

For all enquires regarding servicing, please contact your local Stannah Service Office at the address given on page 2 of this booklet.

A Service Log Card supplied by the Service Office will be completed after each service visit.

Owing to our policy of continual product development, we reserve the right to alter specifications and dimensions without prior notice. At the date of publication this manual was up-to-date and should there be any significant differences we will endeavour to advise you with an addendum.
