# INTRODUCING

THE

# MRLi

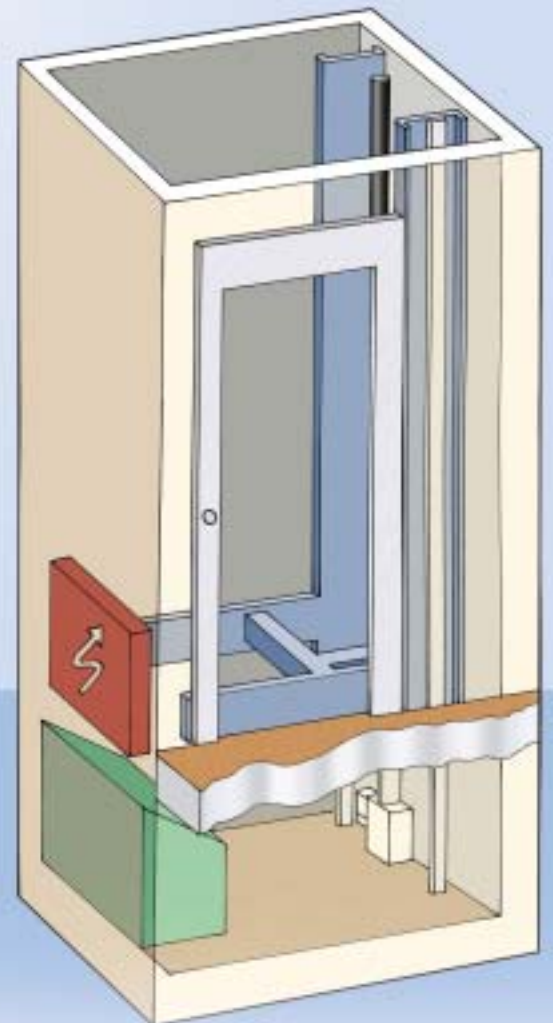

The MRLi has all the reliability and quality you would expect with the additional benefit of having the drive system and controller cleverly located within the pit and lift well, so eliminating the need for a motor room completely. The result is reduced building and operating costs combined with improved performance.

## ◆ MOTOR ROOM-LESS *INNOVATION*

### MRLi benefits:

- No motor room required
- Manufactured in the UK
- Short delivery
- Latest hydraulic technology provides superior performance
- Low pit depth
- Low headroom
- Easy emergency lowering and passenger release - safe & convenient to use
- Opposite and adjacent entrances available
- Reduces building and maintenance costs
- Lower power requirements
- Structure supported model available - removes the need for a load bearing wall
- Fully compliant with EN81-70

## WITH PROVEN HYDRAULIC SAFETY
