

TB-GEN007a

TECHNICAL BULLETIN

INFORMATION ONLY

For the Attention of : Graham Mears, Paul Ayers, Peter Amura, Larry Power,
Sales Team, Estimators, Testers, CDO

From: Angelos Strantzalis – Senior Product Engineer (Passenger Lifts)

Date : 13 Mar 2015

Subject : **New MP & Kleemann EN81.20 Pit Ladders 2**

Product: All

Pages : 1

Background

The bulletin TB-GEN007 dated 16 February 2015 describes and specifies the new EN81.20 pit ladders that will be sent by our OEMs (Kleemann & MP) as standard. However, there are a few occasions where the lift layout does not allow the use of the type of ladder specified from our OEM.

Ordering, Estimating & Place into manufacture

On those occasions where the lift layout does not permit the proposed OEM pit ladder, the we should spec an alternative foldable ladder, to be sent by them (the OEM) and include this in the quote (for Kleemann) and remarks of Helpmate (for MP):

‘Please provide alternative foldable EN81.20 ladder’

The foldable pit ladder has a price difference of at least **£200**.

I hope you all find this Bulletin to be of help and should you have any questions about this topic or would like to know a little more then please contact me on **Ext 8646 or DDI 01264 34 36 46**
