Date : 04/11/08

Product : System 21 Passenger Lifts

Subject : Changes to Sling Diagonal Braces on 6 & 8P lifts

Status : Product Update - Information only

Pages : 1

Originator : Stannah Lifts Ltd, Anton Mill, Andover, Hants SP10 2NX 01264 339090

Detail

Modifications have been made to the fixing points for the sling top diagonal braces. Where the diagonal brace used to fix to the top of the stiffener, the new design features an additional bracket for securing the diagonal brace. The 2 brackets are secured to the upright using 3 off each M12 x 35 Hex Hd Screw, M12 Contact washer and M12 Full Nut.

This change affects all 6 and 8 person lifts manufactured from 29/09/08.
