Date : 18/11/2009

Product : MRLi Passenger Lifts

Subject : Pawl Device Retrofit Kits on lifts with 2 car entrances

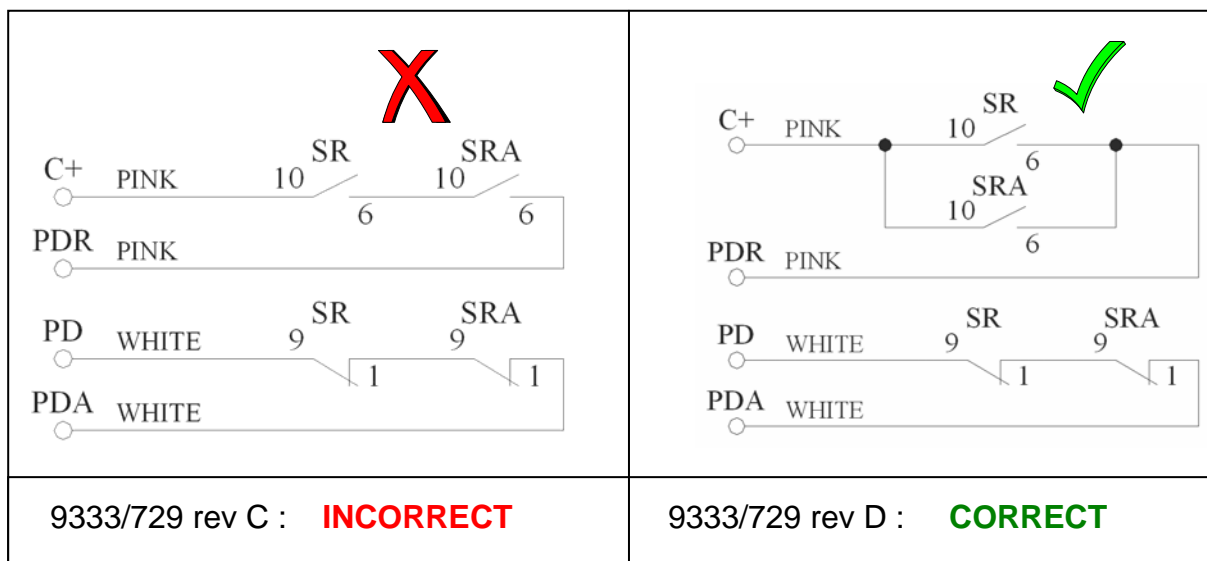

Pages : 1

Originator : Stannah Lifts Ltd, Anton Mill, Andover, Hants SP10 2NX 01264 339090

TB87 rev A = Change to SRA wiring

Following the original issue of this bulletin an error has been found on drawing 9333/729 revision C whereby the SRA relay wiring was shown incorrectly (see diagram below).

Note: the schematic diagram supplied (1009239 rev A) shows the correct wiring of the SRA relay.

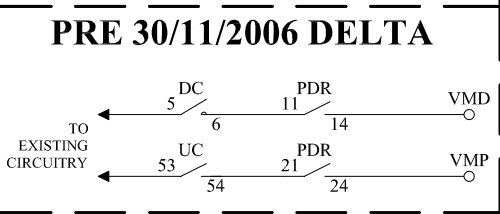

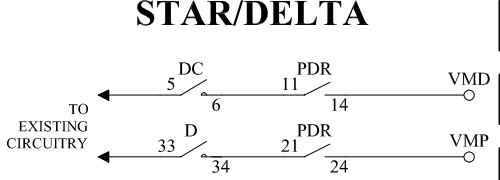

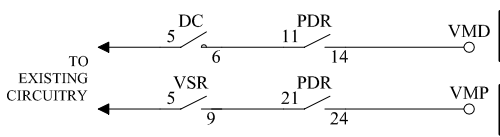

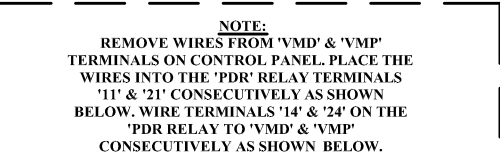

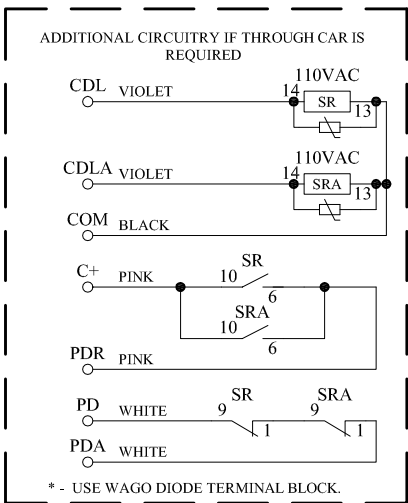

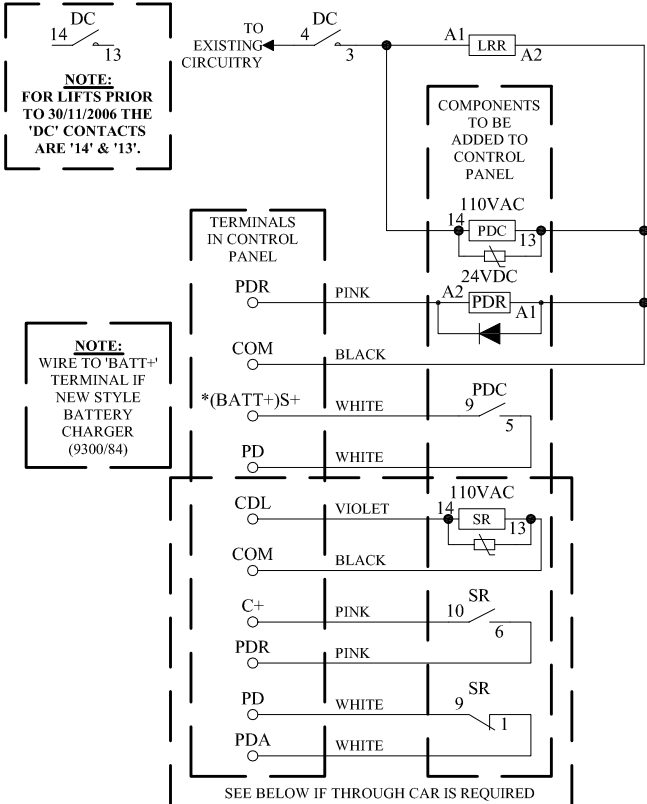

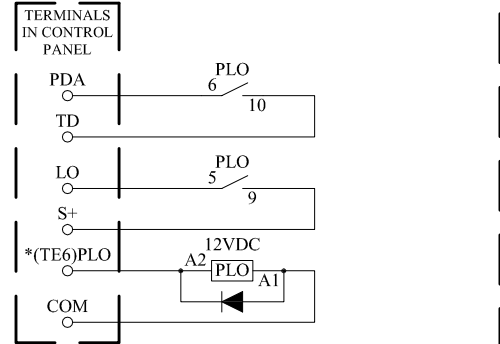

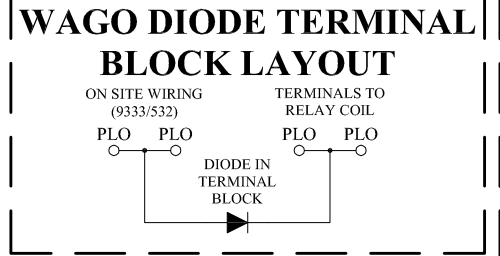

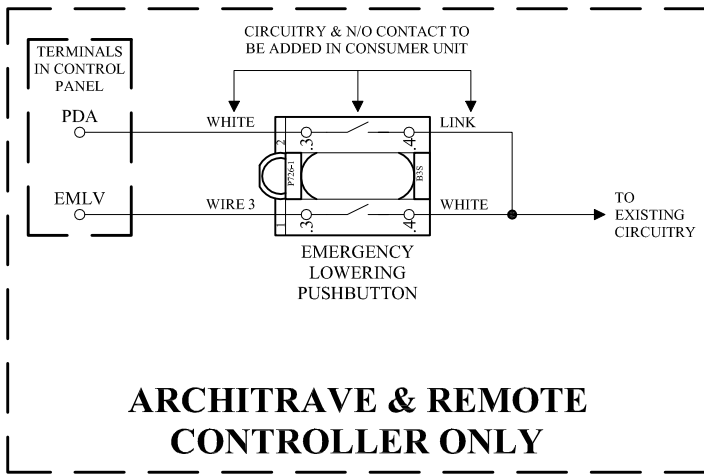

Action Required:

1. SRA relay on MRLi's with 2 car entrances to be wired in accordance with the above diagram (or 9333/729 revision D or 1009239 rev A).
2. A paper copy of 9333/729 revision D must be stored on site (2 car entrances only).
Earlier revisions of 9333/729 and 1009239 should be discarded.

No extra parts are required - this is a wiring change only.

Attachment:
 - 9333/729 rev D

**NOTE:
ADDITIONAL WAGO TERMINALS
LABELLED 'PDR', 'PDA' & 'PD' REQUIRED.**

RELAY & CONTACTOR DATA
IMO RELAY 110VAC
