

## **Stannah Lifts Technical Bulletin**

**Issue No: E14**

**Date: 29/08/02**

**Page 1 of 1**

### **LIFT TYPE**

System 21, 2 floor lift installations.

### **DESCRIPTION**

Introduction of the new Nexi Lift Controller to replace the 'compact' relay controller.

### **SUMMARY**

From the 2<sup>nd</sup> September 2002, the Nexi 2 Floor Lift Controller shall commence production and the Relay Controller ("Compact") shall no longer be manufactured.

The Nexi Controller is a reduced version of the Nexus Controller.

The Nexi specification is as follows;

- 2 floors only
- Single entry doors only
- 3 phase door gear
- DC door gear
- V3F door gear
- Single Button Collective call handling/acceptance
- Homing to Ground floor
- Shutdown to Ground floor, doors parked closed
- Lift positioning without limit box assembly
- Minimised programmable system:
- Journey Timer (40 – 190 Seconds)
- Door Open Delay Time (2 – 32 Seconds)
- Advanced Door Opening (ON/OFF)
- Door Nudging (ON/OFF)
- Fire Control (ON/OFF)
- No diagnostic interface
