

Stannah Lifts Technical Bulletin

Issue No:E 12

Date: 27/02/02

Page 1 of 2

LIFT TYPE

All new system 21 installations.

DESCRIPTION

New type of Autodialler.

SUMMARY

As of the 4th March 2002, all system 21 lifts will be going to site with Windcrest autodiallers fitted as standard unless a customer has specified differently. New wiring information is currently being issued. For service branch information, please find attached customer protocol sequence upon receiving a call from a windcrest unit.
